

810-SG Series **COMPACT GLOVE BOX** with transfer chamber AND flat side access door

Completely sealed glove box for basic isolation and/or containment.

The 810-SG Series by PLAS LABS are constructed of an optically clear material, developed for isolation and / or containment. All units feature a high visibility of the interior, cleanliness, safety, complete containment, portability and a draft-free atmosphere. The installed purging valves are ideal for lowering oxygen and humidity levels.

Other features include:

- Transfer chamber with purging valves and vacuum gauge.
- Flat side access door for easily introducing larger equipment.
- Four (4) key cock valves for purging: Two on the main body, two on the transfer chamber.
- Hospital grade multiple electrical outlet strip.
- Pressure relief valve with small HEPA filter.
- Standard 24 month warranty, (not on gloves or consumables.)
- White ambidextrous gloves.
